CLIMATE FRESK ONLINE WORKSHOP 30TH OF JUNE 2022, 17:00-20:00

Raise awareness for climate change. The climate Fresk tool is a trigger for transformation and empowers participants to become informed and engaged advocates for a sustainable future. The game is particularly useful to introduce the complex problems of climate change in a fun and playful way, and can be used in youth work, school or community groups.

If you want to facilitate a Climate Fresk workshop, you need to participate in one before. The workshop is based on a 42-card game. Each card represents an element, a cause or a consequence of climate change. As a team you are to find the cause-effect relationship between the different components of climate change.

ALPINE CLIMATE ACTION MEETING 7TH & 8TH OF JULY 2022, INNSBRUCK/A

Would you like to get more involved in climate protection? Discuss, meet and network with like-minded people and NGO representatives. Develop an Alpine Climate Action Camp in one of the workshops: Collect creative ideas for a climate camp, design a programme that is not only fun, but also effective in starting climate action with young people. Meet the CIPRA Youth Council (CYC) and get to know how they work towards a sustainable future in the Alps. On top of it you will become a climate puzzle facilitator*.

**Please note that having done one climate fresk workshop before the training is mandatory. If you cannot join the 30st of June session (online), please register and participate in another one. List here: <https://climatefresk.org/registration-workshop/>*

INFORMATION

Attendance

You can attend both events separately. However, if you want to become a climate fresk facilitator, you have to attend both.

Language

English

Costs

free, travel costs and one night stay for Innsbruck are covered
